In re application of HUANG et al

Serial No. 10/702,163

Filed 11/04/2003

"Balancing Vertical Load Device for a Motor"

Examiner: Leslie, Michael S

Group Art Unit 3745

Commissioner of Patents and Trademarks
Washington, D.C. 22313-1450

Sir:

In response to the Office Action mailed May 20, 2005, Examiner is requested to enter an amendment to the application as follows. The amendment seeks to:

1. remove material objected to by the Examiner, and
2. place the claims in condition for allowance.

Applicant submits that the changes represent material present, or inherent, in the specification as filed and do not represent new material. Reconsideration of the rejections and allowance of the claims are respectfully requested for the reasons set forth below.

IN THE SPECIFICATION

Please make the following changes, with deletions noted by strikethrough and additions noted by underlining.

Pg 3, ln 18 The motor is a voice coil motor, having an inner part made of magnetic steel 111 and a stator core of ferromagnetic material, which form a permanent magnet.

Pg 3, ln 23 The motor 11 has a digital linear array of ~~digits~~ 114 for indicating a linear ~~vertical~~ position of the electric coil 113

IN THE CLAIMS

Please amend the claims to read as follows. All of the pending claims are reproduced below for the Examiner's convenience.
